

LIONEL

SPOKANE, PORTLAND & SEATTLE 4-6-2 STEAM FREIGHT SET

At the head of this colorful, ready-to-run unit-train is the rugged, die-cast 2044 4-6-2 steam locomotive, equipped with a DC can motor with flywheel, working headlight, operating smoke, whistle, and wireform handrails on the locomotive and tender. It's the perfect locomotive to pull the three bright 6315 Hooker Chemical single-dome tank cars equipped with metal brake wheel, catwalk, ladders, and handrails, sequentially numbered 63151, 63152, and 63153. Keeping track of it all is a SP&S 6517 illuminated bay window

1997 LIONEL CENTENNIAL SERIES

We'll be 100 years young in the year 2000 and we've been looking for ways to celebrate. Some time back, our graphic designers came up with a specially decorated GP9 to introduce our new Lionel logo to our Visitor Center layout here in Chesterfield. Everybody who saw it was so impressed with it, we decided to introduce a series of logo trains to celebrate our heritage in a way that brings together the best of the past and the present.

Here's how it will work. In each year, 1997-2000, inclusive, we will offer a modern diesel locomotive and unit-train decorated with one of Lionel's historic logos. In the year 2000, our offering will be the first corporate logo, the Lionel Lion, introduced in 1908, on a contemporary diesel that we have never offered before. Each year will feature a different type of car and will be decorated to go with the locomotive for that year.

1997 LIONEL CENTENNIAL SERIES GP9 DIESEL LOCOMOTIVE

This is the perfect locomotive to introduce our newest corporate logo. This GP9 has the following features:

- Command-equipped
- Metal frame and handrails
- Pullmor® Classic AC motor
- Railsounds 2.5™
- Die-cast truck sides
- Directional lighting
- Electrocouplers™

Plus, this locomotive will be equipped with a special and unique Railsounds feature appropriate for our Centennial celebration.

1997 LIONEL CENTENNIAL SERIES HIGH-CUBE BOXCAR 4-CAR SET

These cars are beautiful! Sequentially numbered, 9697-1, 9697-2, 9697-3, and 9697-4, these boxcars have opening doors, metal door guides, metal brake wheel and die-cast trucks. And the ends are realistically decorated to denote the extra height! Length: 11 1/2" (6-29220) \$249.95

LIONEL HOLIDAY RAILSOUNDS™ BOXCAR

New! Lionel has always been a part of the holidays. So it seemed only natural to combine beautiful new holiday graphics with our digital Railsounds technology. Place the boxcar on the track, whether you're operating in Command mode or with traditional transformer-control, and the music begins. Start the train and hear a

beautiful rendition of Silent Night – mixed by a friend of ours in California. Hit the whistle (transformer-controlled environment) or stop the train (Command-controlled environment) and you hear even more holiday sounds that are sure to put all of your friends and family in the holiday spirit! Length: 10 1/4" (6-16776) \$199.95
