

Big power like this deserves a big train! The latest in Lionel's "Super Sets" gives you a great start with 15 cars to run behind your Triplex. The set includes Triplex #5016 in her "as delivered" look with a Russia Iron boiler and all the trim.

The train is made up of 15 scale freight cars including a VISION double-deck stock car and VISION caboose to add even more sounds and action. Also included are many uniquely decorated freight cars available only through this set including a mix of prototypical Erie cars and some fantasy cars that any Erie fan will appreciate like the "Still Well" tank car, "Dun More" boxcar, "Starrucca Beer" reefer and even "Hoboken Bindle's" boxcar - complete with "Hobo Ken" riding along! At over 15 feet in length, this set will have your head and your drivers spinning!
