

## THE VISIONLINE TRIPLEX

Few locomotives will make a bigger impression than the Triplex. A rare breed of iron horse for sure, but one we'd all love to have in our stable. Don't miss out on your chance to own the most accurate and feature-heavy model of this marvel ever made. Versions include as-built renditions of all three Erie locomotives as well as a later service model of 5016 after being repainted in black. Three additional fantasy units cover a what-if reorder by the Virginian and for our western modelers, what if Rio Grande and Northern Pacific had given the design a chance? Oh, what could have been! And last but not least, a spooky glow-in-the-dark "Eerie" version that is sure to be a show stopper in your Halloween collection.
